

A large, detailed image of the Matterhorn mountain peak, showing its characteristic jagged, rocky structure. The mountain is rendered in a dark, almost black color, contrasting sharply with the bright red sky. The peak is the central focus of the image, with its sharp, pointed summit reaching towards the top of the frame. The surrounding slopes are steep and rocky, with some patches of snow or light-colored rock visible. The overall composition is dramatic and emphasizes the scale and challenge of the mountain.
